AAPSE

AAPSE.ORG

AAPSE activities…

AAPSE is involved in state, territorial, tribal, regional, and national pesticide safety education and certification, and provides a voice on current issues facing its membership.

AAPSE professional improvement provides learning opportunities through conferences and workshops on current pesticide issues.

AAPSE liaisons (members) are selected to serve on national organizations, committees, and workgroups, such as American Association of Pesticide Control Officials, Certification & Training Assessment Group, and the Pesticide Stewardship Alliance.

AAPSE's listserve is exclusively for members and keeps them up-to-date on emerging issues in pesticide safety and education. It also provides a forum to quickly get answers to certification and safety education questions.

The Journal of Pesticide Safety Education is the official journal of AAPSE (http://jpse.org). It provides a great opportunity to have your studies and programs published in a peer-reviewed journal, as well as to learn from colleagues about their activities.

AAPSE.ORG

AAPSE members…

Enhance public health, security, safety, and the environment through education, outreach, and research which benefits pest managers, policymakers, and the public.

Train and certify or recertify 500,000 private or professional applicators annually in agriculture, urban landscapes, parks, structures, forests, rights-of-way, watersheds, public health, and more.

Reach nearly 2 million people annually from inner city areas to remote rural communities with education and outreach.

Publish education materials such as newsletters; fact sheets, manuals, computer and internet materials; maintain over 75 web sites; and translate materials into many languages.

Members include...

- Cooperative Extension Service Agents, Specialists, and Associates
- State and Territory Certification Specialists, Licensing Managers, and Pesticide Inspectors
- Federal Government Program Certification and Education Personnel
- Indian Nation Certification and Education Personnel
- International Certification and Education Personnel
- Chemical Industry Representatives
- Pest Control Industry Educators

Protecting human health and the environment by promoting high quality pesticide education programs.

American Association of Pesticide Safety Educators

An association of educators providing science-based pesticide safety education programs.

Join us...

- a recognized national voice
- a forum to keep current on emerging pesticide education issues
- an opportunity for professional development
- an opportunity for exchange of information, discussion, and cooperative study

... and become a member!
